

A goody two-shoes and her raunchy pal vacation to Europe to get laid, but a good man is hard to find - especially when you're on the run from a cuckoo stalker who insists she's your bestie.

SYNOPSIS

Daisy and Hellcat work together at Boneyard.com (*Buzzfeed meets Playboy*).

After a horrendous day at the office, where Daisy's dumped by her sex-withholding fiancé and Hellcat gets fired for not washing her coffee cup, they decide to get the hell out of Dodge. What better way to soothe their broken hearts and egos than go to Europe for a much-needed vacation.

With one purpose: get laid.

Laycation!

Unfortunately, things don't go as planned.

Every chance of boning their worries away is sabotaged as they find themselves on the run from Bad Shelley, their cuckoo stalker who's obsessed with being their "bestie."

Will Daisy and Hellcat ever get laid?

Or more importantly, will they have huge life epiphanies?

Daisy is a Disney-loving accountant who dreads turning 30 after her khaki-wearing, conservative fiancé dumps her. It's so unfair, her Mickey Mouse pavé promise ring didn't mean shit! Her marriage timeline back at zero, this good girl thinks a new man will save her, but what she really needs is a Laycation to release her inner bad girl.

HELLCAT

Narcissistic "sexpert" host, Hellcat, 35, is a self-proclaimed bombshell who would cut off her right arm before giving up her cherry red Saint Laurents. Fighting the stigma that women are washed up after 30, she pushes all boundaries to remain relevant and sexy. Her personal and professional mission is for women to come first. Literally.
